Sounds like it might be the Figueroa Special Event Advisory Committee.

To Tim's point, a special event advisory committee was created for the Figueroa Corridor area out of the My Fig discussions last year. The committee meets monthly to review special events that would specifically result in street closures and has event organizers that have applied for permits make presentations to the committee. I believe downtown also has a committee like this run by CD14.

The Fig committee is run by Council District 9 and the staffer there to speak with is Bryce Rosaro.

Her email is bryce.rosauro@lacity.org

Hope this helps.

Thanks,

Aaron

I believe this was something that came out of the My Fig stakeholder discussions. There was a thought to create something similar to what they have in Hollywood to coordinate all special events in the area.

Aaron: do you know?

Hi Aram,

Is the Fig Corridor Transportation Coordinating Committee related to your work? The LA Football was advised to join the committee but they need to find out who to contact. I don't know if this is a committee related to your shop or to My Fig.

Tom

I got a call from Brian League of USC asking about a Fig Corridor Transportation Coordinating Committee. USC is working with the Los Angeles Football Club on the use of the Coliseum and the new soccer stadium and Brian said that the LA Football Club was advised to join the Coordinating Committee.

Does this have anything to do with My Fig? Or is this the group that used to coordinate the events at STAPLES, Dodger Stadium, the Convention Center, and the Coliseum? Does that group still exist? Is this under Aram's shop? Sorry for the list of questions, but the Football Club would be willing to join the Committee but they can't find it.

Do you have any suggestions for me as to where to start?

Thanks

Pat
